# EIS Flex

Express Imaging System  
Scan > Print > Copy

## Introducing EIS Flex

Adjustable Height Clearance of 36" - 47"

add an existing printer for a custom scan-to-print solution!

36" scan width with scan speeds up to 6-ips in B/W and 2-ips in color

Touch screen and keyboard control of imageFLOW interface

Choose from 4 different scanner models to match your scan & copy needs (Graphtec SK200-09 shown)

Intuitive and easy to use imageFLOW software for scanning, copying and printing functions

Space saving Integrated single foot-print design featuring the Ergos Stand

Powerful Rocket™ Scanner Controller provides the needed horsepower for scanning & copying large documents

The Flex system can be configured with any of the current Graphtec large format scanner models and a wide range of of large format printers from Canon, HP, Epson, Encad and Seiko. Use the Flex system as a stand-alone scanning station or add a Flex system to your existing large format printer to get a complete large format scan, copy and printing solution at a very economical price. The Flex system stand is adjustable to accommodate different printer heights or adjust the scanner height to the lowest level (36") and use it as a stand-alone scanning station. Eight different Graphtec scanners are available so you get maximum flexibility to meet your scanning, copying and printing needs.

A flexible solution catering to your custom **Scan > Print > Copy** needs.
