

Océ Colour Scanners

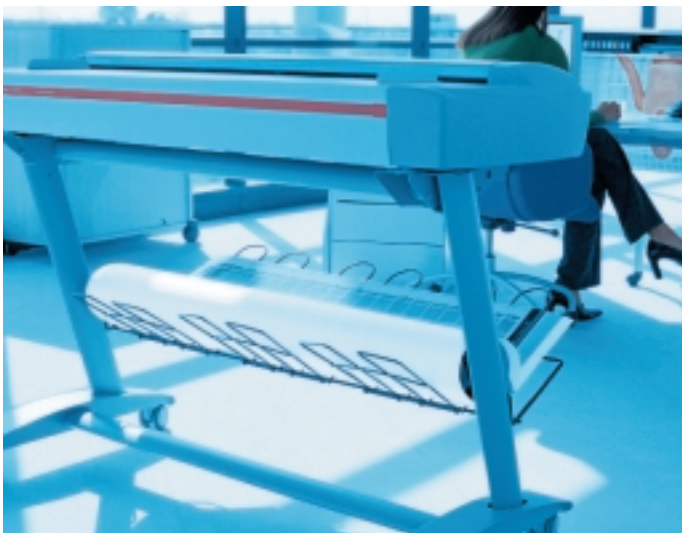

Product information

Océ CS4032/CS4037/CS4044/CS4054

Wide format colour scanners for scanning and copying

With their simple, productive operation, the new Océ colour scanners give you excellent results from every original. They ensure faithful reproduction for copying or scanning to digital files. And as part of Océ's wide format document solutions, they have all the support you need.

Easy, productive wide format scanning

These scanners handle all wide format colour scanning functions: copying documents, scanning to secure digital files or scanning to e-mail. They are easy and productive to use, with one-touch "green button" operation and automated settings for results that are right every time.

High quality colour scanning

Preset optimal scan and copy modes give you the assurance of high quality results every time, even with difficult or poor-quality originals. Advanced, built-in image enhancement functions ensure that every original is always reproduced with the highest possible precision and information content.

Optimum connectivity to your system

Installation of your Océ wide format colour scanner is quick and simple, with smart software for automatic guidance at every stage. The standard FireWire (IEEE 1394) interface gives you instant, plug & play connectivity at the highest throughput rates.

Part of Océ's wide format systems

Océ's wide format colour scanners are part of a total solutions concept that meets all your document needs. The combination of scanner, software, printer and support ensures productive handling of every wide format scanning need for display graphics and CAD/GIS applications.

Handles all wide format originals

Whatever the original, you can handle it with the Océ colour scanners. Widths of 36", 42" or 54", and rigid or thick materials (up to 15 mm) like mounted posters and boards. The straight scanning path treats your originals with the care they deserve.

Backed by Océ business services

Océ offers you not just products but total document solutions. Including full support at every stage: from pre-sale consultancy and advice, through installation, training, application support and follow-up. In brief, everything you need to build your colour business as efficiently as possible.
