

**TRACK WITH THE BEST.
TRACK WITH SEPIALINE.**

Capturing your expenses doesn't have to hurt. With Sepialine firsts like snooze, quota and look-ahead searching, Sepialine makes life easy for your users. The result? Better, more accurate billing data. That's why so many leading professionals choose Sepialine for cost recovery.

Expense tracking is a critical part of our business. We chose Sepialine because their...product integrates directly with our project accounting system and they are committed to continuing to enhance their systems.

**Cost Recovery
Solutions for Deltek®**

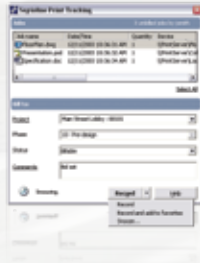

The Sepialine Cost Recovery Platform

With comprehensive tracking software from Sepialine, you'll know more about your business expenses than ever before. Sepialine software tracks print, copy, scan, fax and much more, so you get a complete picture.

Print Tracking

Capture 100% of your print costs with Print Tracking from Sepialine. Because it's application-independent, you'll track every CAD, graphics and business application - including the newest versions of AutoCAD®, Inventor® and Revit®.

Copy + Fax Tracking

Extend the Sepialine Platform to your walk-up devices. Sepialine Copy + Fax Tracking introduces revolutionary workflow to capture expenses without compromising productivity.

Cross Platform Support

The Sepialine Platform supports Macintosh, Novell, a variety of RIP server, and most accounting software packages.

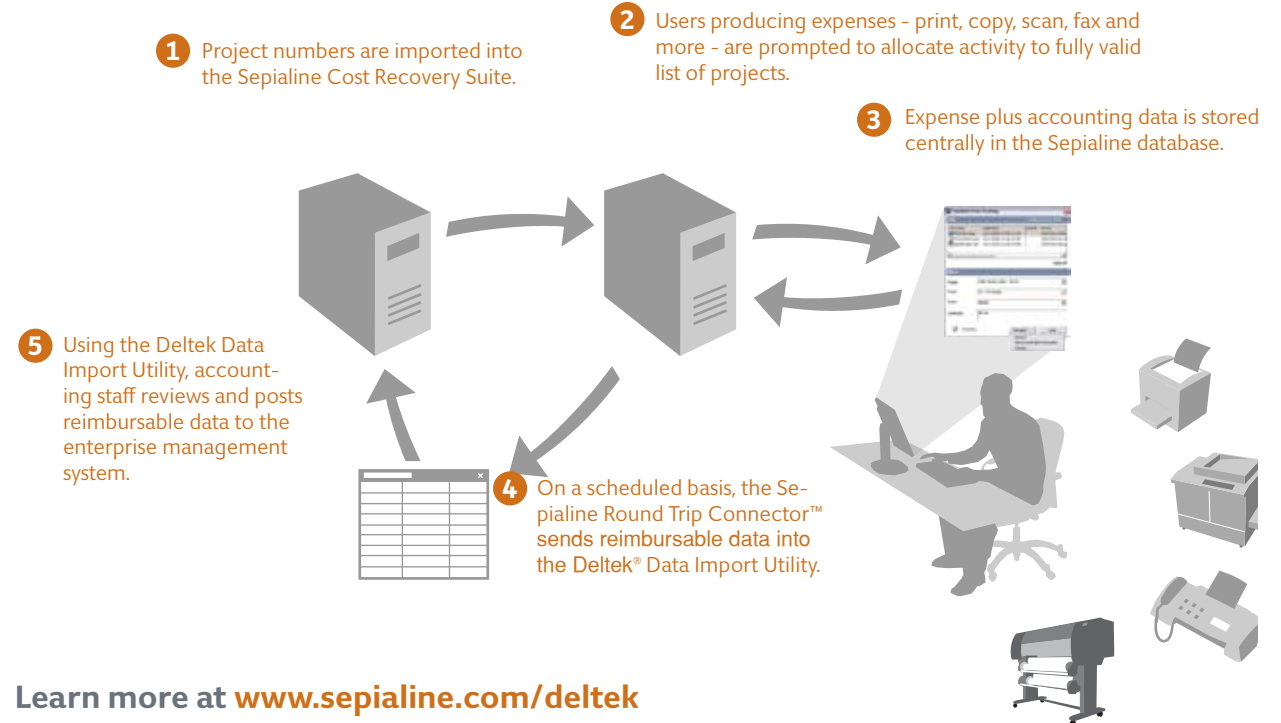

Sepialine® + Deltek®

Cost recovery integration

Tracking reimbursable expenses is more important than ever before. Whether your firm has an established cost recovery strategy, or you're just getting started, Sepialine and Deltek deliver the first truly integrated platform to capture, analyze and report design firm expenses.

New Round Trip Connector™ software from Sepialine closes the cost recovery loop by not only importing project lists from Deltek Vision and Advantage software, but also automatically sending data back into your Deltek server. The result is one-touch integration, reduced accounting time and expense, and increased profits.
